Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5, drawn to a peptide sequence which is substantially equivalent to a sequence selected from a group consisting of SEQ ID No: 1 and 2, classified in class 530, subclass 300.
 - II. Claims 6-13, drawn to a method of inhibiting angiogenesis comprising the administration of the peptide according to group I, classified in class 514, subclass 2.
 - III. Claims 14-19, drawn to a method of inhibiting tumor growth or metastasis comprising the administration of the peptide of group I, classified in class 514, subclass 15.
 - IV. Claims 20-24, drawn to a method of inhibiting psoriasis, macular degeneration, neurological disorders or restenosis comprising the administration of the peptide of group I, classified in class 514, subclass 21.
 - V. Claims 25-29, drawn to a method of detecting angiogenesis in a tissue comprising the contacting of the peptide of group I with a tissue, classified in class 436, subclass 500
 - VI. Claims 30-33, drawn to a method of detecting tumors or tumor invasion, classified in class 436, subclass 525.

VII. Claims 34-35, drawn to a method of detecting a peptide with antibody, classified in class 436, subclass 517.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II-VII are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the methods can be accomplished using a compound other than the peptide of group I, such as by anti-sense technology or by immunotherapeutics.
3. Inventions II-VII are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions differ one from the other because the different inventions have materially different purposes, have different outcomes, and are used for distinct reasons.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1642

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
